

The IDpunch 5 Fingerprint Terminal

An Affordable, Effective Way to End Buddy Punching

Lost Minutes Equal Lost Dollars

“Buddy Punching” – when one employee clocks in for another at the start or end of a shift – severely impacts an organization’s bottom line.

In today’s challenging economy of escalating payroll costs, labor rates and benefits, those lost minutes result in lost dollars.

In fact, the American Payroll Association estimates that buddy-punching accounts for up to 5% of the gross payroll for a typical organization.

An Affordable Reader from InfoTronics

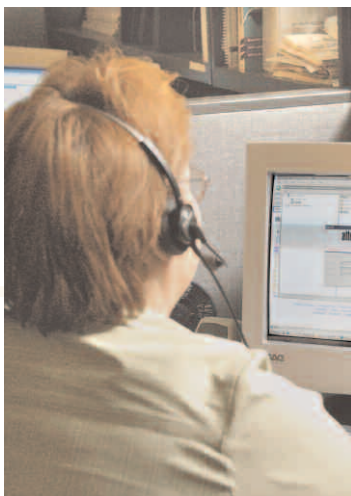

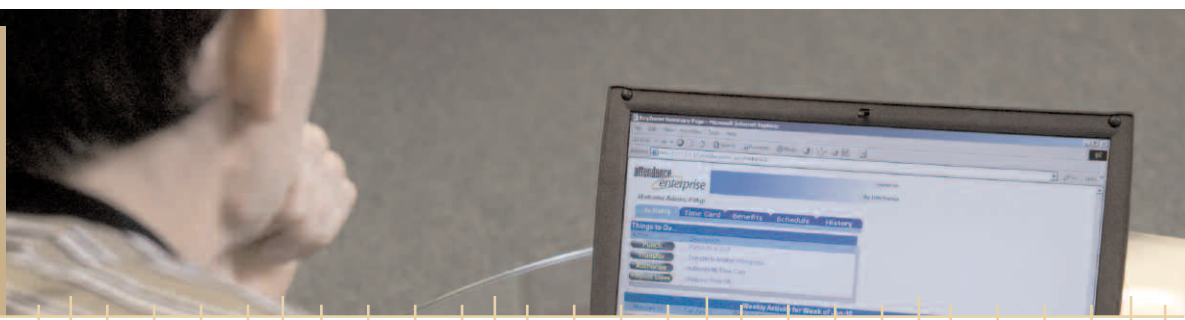

Now, there is a low-cost, biometric data collection device that eliminates buddy punching and increases security – the affordable IDpunch 5 from InfoTronics, Inc., leading developer of web-enabled time and attendance systems.

The IDpunch 5 is an industry-proven, easy-to-use time recorder providing accuracy and identification for your organization. As an employee punches in and out using a finger, advanced optical scanning technology instantly identifies the employee and records attendance.

Fast Return on Investment

Biometric data collection was once available to only large organizations at a significant cost. The affordable IDpunch 5 puts this technology in your hands. Your employees use biometric input – their finger – to clock in and out. That means no more badges or PINs that can be shared. The finger uniquely and reliably identifies the employee.

In today’s competitive marketplace, every dollar counts. Let the IDpunch 5 provide a fast return on investment by removing costly buddy punching, and accurately tracking employee data.

The IDpunch 5 Terminal Specifications

The ID Punch 5 Terminal is a stand-alone finger reader built using the Linux operating system and DigitalPersona's UrU 4000 optical scanning sensor.

- Instant Operation: The identification speed is virtually instantaneous.
- Flexible Design: Transactions are downloaded automatically to your InfoTronics Attendance system.
- Convenient: With either the Attendance Enterprise or the hosted Attendance on Demand time and attendance solutions, view employee attendance records at your convenience.
- Reliable: Employees can enroll up to five fingers for added reliability.

Technical Specifications

Capacity	250 Employees enrolled with up to five fingers each Stores up to 5,000 transactions
Communications	Ethernet 10/100 Base TCP/IP RS232 or RS485*
Optical Sensor	DigitalPersona UrU4000 Optical Sensor Automatic Exposure Compensation
Biometrics	1 to 1 Matching 1:1500 Identification FAR <=0.0001% FRR <=1%
Specifications	240(L) x 138(W) x 46(H) mm 4 Line LCD Backlight Display
Power requirements	110V DC, 2 amps
Compliance	Conforms to the Americans with Disability Act (ADA) specification

Contact your certified InfoTronics dealer today for more information on the IDpunch 5 Terminal.
